"Delightful."

Senator Savage Says Fifty-one Votes are Pledged to Flint Already.

Hard Leader Rowell Says he Not Deceived by "Amazing Claims."

Nobody Gets Hurt as "Fight" is Not "Vicious" or "Objectionable."

[BY DIRECT WIRE TO THE TIMES.]  
SACRAMENTO, Jan. 1.—[Exclusive Dispatch.] "Be not deceived by the amazing claims which are being made by the supporters of Flint, or the effect that they have the count won and that they now control a sufficient number of votes to elect him to the United States Senate. Such claims are made only for the purpose of attempting to stampede doubtful members, and they are not at all based upon facts. Flint has not the votes which his workers claim for him."

This spoke Senator Chester Rowell of Fresno today, in response to a direct question as to how stands the senatorial contest. He added that he was making no claims, giving out no figures, predicting no result, but he stated that he was satisfied with the position of affairs. Being the leader of the Bard forces, the man to whom the Bard workers made their reports, his statement, made privately, that he was satisfied with present conditions, means much, for Dr. Rowell is a conservative man and is not one to make idle claims.

The Flint headquarters was established at the Golden Eagle Hotel this afternoon, when John G. Mott, Oscar Lawyer, Lee Youngworth and several others arrived in Sacramento and began their work in the interest of their candidate. The element of viciousness has been eliminated from the fight entirely, and the effort to secure votes by means made in as fair a manner as possible. There is nothing objectionable about the contest, and the members of the opposing factions are treating each other with a degree of courtesy which was not in evidence when, five years ago, Dan Burns was defeated and Bard elected.

The most important question yet to be decided is whether or not there will be a senatorial caucus. The Flint men are working for a caucus because, they believe, if they can secure a caucus and have a secret ballot therein, they may be able to secure the votes of members who are unqualifiedly pledged to Bard. On the other hand, the Flint opposition is combating the caucus idea, and will endeavor to throw the senatorial fight into the open sessions, thus making every man come out boldly, vote for his choice and thus positively declare himself.

The present program is for Assemblyman Estudillo of Riverside county to nominate Bard and for Senator Hahn of Pasadena to place Flint in nomination. That will be before the joint meeting of both houses, and will be followed, provided the matter is not settled in caucus, and that is not now considered probable.

Senator Savage stated today that Flint has fifty-one votes pledged, but where they come from he did not state. Senator Rowell is not giving out any figures, but he asserts that Bard has a greater number than any other one candidate. Oxnard's friends, and they are far from numerous, claim sixteen votes. Four members of the San Francisco delegation have declared they will lay low and await results, which is but another way of saying they propose to see which way the cat will jump before they vote.

The senatorial question is not so prominent tonight as that of the organization of the two branches of the Legislature. The Assembly will convene tomorrow morning at 9 o'clock, and the Senate at 9:30, to decide upon organization. The most interesting contest now on is that between Clio Lloyd and Jacob Steppacher for the chief clerkship of the Assembly. Gen. George Stone has been making Steppacher's fight, and tonight it was announced that he had withdrawn his candidacy. Jack Stafford of Sacramento probably will be sergeant-at-arms of the Assembly.

Gov. Pardee has been making a strong effort to reduce the patronage cost below what it was two years ago. The Senate seems to favor the ratio of \$30 for that house to \$12 for the Assembly, but it may be fixed at \$16 and \$8 or \$10. The usual army of place hunters is here, and they are doing everything possible to increase the amount of patronage. The Governor, however, will insist upon an economical session, and what he says probably will prevail.

SACRAMENTO, Jan. 1.—[Exclusive Dispatch.] The arrival of the midnight train from San Francisco brought to Sacramento all the members of the Legislature, all the political bosses and all the hangers-on who had remained in the metropolis to do politics. With them came Frank P. Flint, Henry T. Oxnard and George Knight. With them also came the senatorial candidate in the person of Arthur G. Fisk, postmaster of San Francisco and former Speaker of the Assembly.

Fisk is a receptive candidate. He says he has been asked by a number of his friends to enter the race, and several members have declared their intention to vote for him. If there is a deadlock, he thinks there may be a chance for him. Had he announced himself about the time Frank Flint entered the race, he would have been a much stronger man than Flint, for there are few men in California who are more popular among the politicians than is Arthur Fisk.

LONDON, Jan. 1.—[Exclusive Dispatch.] The morallists agree that 1904 marks the dividing line between the East and the West and is annus mirabilis in its momentous consequences to the future of the world. It has recast European coalitions, revolutionized the conditions of modern warfare on land and sea, and inspired the Oriental races with new ambitions, which may unsettle the present balance of power in two hemispheres. The most sagacious leader writer recognizes the limitation of a narrow editorial room, and makes no attempt to forecast the trend of future events.

England's position is considered stronger in every respect than it was a year ago, and the King has earned the gratitude of the nation for the altered relations with France. The German Emperor has been forced into the background, but nobody of any intelligence doubts that peace, when it comes, will be ordered at Berlin, rather than at London or Paris, and this will be for the simple reason that he will not allow it to be otherwise.

The condition of Russia is regarded by all reviewers of the year as well-nigh hopeless. The Japanese are expected to master the entire eastern ridge of Port Arthur in a short time and, following the surrender of the western forts, the Baltic fleet will be ordered home. The Czar's manifesto is generally pronounced a marvel of verbosity and indecision, which leaves uncertainty in the saddle and does not remove the causes of discontent.

There is general agreement among the politicians that the new year will witness a general election in England, in the spring or autumn. The Chancellor of the Exchequer is making ostentatious efforts to collect the income tax faster than usual, but probably anticipates a large deficit and considers it necessary to levy a 5 percent tariff on manufactured goods for revenue purposes. If he carries Ball four with him, a general election must follow the change in the fiscal policy.

Moberly Bell, Sir Alfred Harmsworth and Arthur Pearson form a triumvirate for the control of public opinion by the press; and they agree that that army must have new guns; that the sea power requires a fresh investment of millions, and that the resources of direct taxation have been exhausted.

Elliott Root's new reading of the Monroe Doctrine is accepted by the morallists, both free trade and protectionists, as fresh proof that nothing can be done in the modern world without an effective navy. The Chamberlain argument will be that the best diplomacy in the Foreign Office and the closest understanding with America are only half measures, and that sea power must be maintained and the empire united, even though free trade goes to the wall.

UNITED STATES SURPRISE.  
CLERICALS MEET THE KING.  
[BY THE ASSOCIATED PRESS—P.M.]  
ROME, Jan. 1.—[By Atlantic Cable.] For the first time in the history of the United States, clerical advisers were present at the reception of the Quirinal today to extend New Year's greetings to King Victor Emmanuel. It is reported that the clerical advisers had consulted Pope Pius X as to their attitude toward the king's reception, and were advised that they should do their duty as royal subjects.

After the reception the officials were received by the Dowager Queen Margherita, who, conversing with Deputy Pavla, spoke of the St. Louis Exposition, and said she regretted that she had been unable to visit the fair as she had wished to do, and that "America is a most interesting country."

The New Year's services at St. Paul's Episcopal Church, Belmont and Evans avenues, were marred by a fire which caused a panic and for a time threatened loss of life. The decorations caught fire, and the congregation started a rush for the doors. The pastor and the members of the church attacked the flames and soon extinguished them.

Services commemorating the beginning of the New Year were held in all the churches today. The general tone of the service was one of thankfulness for the prosperous year that has passed and of hope for the new one.

Nobody Gets Hurt as "Fight" is Not "Vicious" or "Objectionable."

[BY DIRECT WIRE TO THE TIMES.]  
SACRAMENTO, Jan. 1.—[Exclusive Dispatch.] "Be not deceived by the amazing claims which are being made by the supporters of Flint, or the effect that they have the count won and that they now control a sufficient number of votes to elect him to the United States Senate. Such claims are made only for the purpose of attempting to stampede doubtful members, and they are not at all based upon facts. Flint has not the votes which his workers claim for him."

This spoke Senator Chester Rowell of Fresno today, in response to a direct question as to how stands the senatorial contest. He added that he was making no claims, giving out no figures, predicting no result, but he stated that he was satisfied with the position of affairs. Being the leader of the Bard forces, the man to whom the Bard workers made their reports, his statement, made privately, that he was satisfied with present conditions, means much, for Dr. Rowell is a conservative man and is not one to make idle claims.

The Flint headquarters was established at the Golden Eagle Hotel this afternoon, when John G. Mott, Oscar Lawyer, Lee Youngworth and several others arrived in Sacramento and began their work in the interest of their candidate. The element of viciousness has been eliminated from the fight entirely, and the effort to secure votes by means made in as fair a manner as possible. There is nothing objectionable about the contest, and the members of the opposing factions are treating each other with a degree of courtesy which was not in evidence when, five years ago, Dan Burns was defeated and Bard elected.

The most important question yet to be decided is whether or not there will be a senatorial caucus. The Flint men are working for a caucus because, they believe, if they can secure a caucus and have a secret ballot therein, they may be able to secure the votes of members who are unqualifiedly pledged to Bard. On the other hand, the Flint opposition is combating the caucus idea, and will endeavor to throw the senatorial fight into the open sessions, thus making every man come out boldly, vote for his choice and thus positively declare himself.

The present program is for Assemblyman Estudillo of Riverside county to nominate Bard and for Senator Hahn of Pasadena to place Flint in nomination. That will be before the joint meeting of both houses, and will be followed, provided the matter is not settled in caucus, and that is not now considered probable.

Senator Savage stated today that Flint has fifty-one votes pledged, but where they come from he did not state. Senator Rowell is not giving out any figures, but he asserts that Bard has a greater number than any other one candidate. Oxnard's friends, and they are far from numerous, claim sixteen votes. Four members of the San Francisco delegation have declared they will lay low and await results, which is but another way of saying they propose to see which way the cat will jump before they vote.

The senatorial question is not so prominent tonight as that of the organization of the two branches of the Legislature. The Assembly will convene tomorrow morning at 9 o'clock, and the Senate at 9:30, to decide upon organization. The most interesting contest now on is that between Clio Lloyd and Jacob Steppacher for the chief clerkship of the Assembly. Gen. George Stone has been making Steppacher's fight, and tonight it was announced that he had withdrawn his candidacy. Jack Stafford of Sacramento probably will be sergeant-at-arms of the Assembly.

Gov. Pardee has been making a strong effort to reduce the patronage cost below what it was two years ago. The Senate seems to favor the ratio of \$30 for that house to \$12 for the Assembly, but it may be fixed at \$16 and \$8 or \$10. The usual army of place hunters is here, and they are doing everything possible to increase the amount of patronage. The Governor, however, will insist upon an economical session, and what he says probably will prevail.

FISK A CANDIDATE.  
BOSSSES NOW ON SCENE.  
[BY DIRECT WIRE TO THE TIMES.]  
SACRAMENTO, Jan. 1.—[Exclusive Dispatch.] The arrival of the midnight train from San Francisco brought to Sacramento all the members of the Legislature, all the political bosses and all the hangers-on who had remained in the metropolis to do politics. With them came Frank P. Flint, Henry T. Oxnard and George Knight. With them also came the senatorial candidate in the person of Arthur G. Fisk, postmaster of San Francisco and former Speaker of the Assembly.

Fisk is a receptive candidate. He says he has been asked by a number of his friends to enter the race, and several members have declared their intention to vote for him. If there is a deadlock, he thinks there may be a chance for him. Had he announced himself about the time Frank Flint entered the race, he would have been a much stronger man than Flint, for there are few men in California who are more popular among the politicians than is Arthur Fisk.

(BY DIRECT WIRE TO THE TIMES.)

TACOMA, Jan. 1.—[Exclusive Dis-  
patch.] The location of the Pacific  
Railroad on Kaien Island, midway be-  
tween Skema River and Port Simpson,  
has been prevented or rendered  
extremely expensive by the seizure of  
the most important part of the island  
by the holders of a South African land  
grant, known as the Strathcona scrip.  
Kaien Island is not shown on the  
map of the Canadian Department of  
Lands and Works, though shown on  
the Admiralty maps. This Kaien  
Island was left out when Simpson Pen-  
insula was made a government reserve,  
thirteen years ago. Learning these  
facts, George T. Kane of Kaslo went to  
Kaien Island last March on the same  
steamer which carried Grand Trunk  
engineers. Using Strathcona scrip,  
Kane located 2500 acres abutting deep  
water, securing the cream of the water  
front, two and a half miles in extent.  
His associates secured the remainder,  
and the Ottawa government refused to  
accept the scrip, and made a reservation  
of the entire island, leaving the  
scrappers to enforce their claims in  
court.

The Grand Trunk Pacific has recently  
demanded Kaien Island as its chief  
remains, since it embraces twenty  
miles of deep-water harbor besides de-  
fense possibilities which will make it  
another Gibraltar.

TACOMA, Jan. 1.—[Exclusive Dis-  
patch.] A thousand Japanese laborers  
newly employed in the shingle mills and  
as railroad section hands in the Pa-  
cific Northwest desire to work on the  
Panama Canal. Through J. H. Nelson  
of Mt. Vernon, their desire has been  
made known to the Panama Commis-  
sion, with a request for an immediate  
answer. Through Nelson, the Japa-  
nese have recently purchased several  
shingle mills.

THE GOVERNMENT FURNISH TRANSPORTATION  
FOR THE JAPANESE FROM PUGET SOUND

labor will be somewhat higher than  
the Japanese are now being paid, \$1.25

trouble can arise over the law relat-  
ing to contract labor, since the Japa-  
nese are already in this country.

OREGON LAND FRAUDS.

"HE TROUBLE WITH HALL."  
(BY THE ASSOCIATED PRESS—P.M.)  
PORTLAND (Or.) Jan. 1.—The  
report printed yesterday that John H.  
Hall, United States District Attorney  
for Oregon, "had been absolutely re-  
moved from his office by order of the  
President, is substantiated by later re-  
ports from Washington, which state  
that Hall has been removed from his  
duties which have occurred here.  
The beginning of the trouble dates  
back, it seems, prior to the indictments  
returned against S. A. D. Futer and  
Mrs. Emma Watson, but did not be-  
come acute until after the recent trial  
of the land-fraud case. During the  
trial Hall took a leading part in the  
conduct of the government case. He  
examined the jurors, made the opening  
statement in the case, examined some  
of the first witnesses and apparently  
had control of the case for the first  
three days. At the end of the trial he  
made the first arguments and the gov-  
ernment, and divided honors equally  
with Henry in the credit due for the  
conviction.

Since that time Hall seemed to drop  
out of all connection with the investi-  
gation being made by the government.  
He knew, it is said, nothing of the re-  
ason for the postponement of the sec-  
ond case, did not know that Senator  
Mitchell had been subpoenaed as a wit-  
ness until the telegrams were printed  
in the newspapers, and seemed to have  
been no more.

San Francisco Experiences a

(BY THE ASSOCIATED PRESS—P.M.)

SAN FRANCISCO, Jan. 1.—This  
city experienced a number  
of earthquakes today. At 2:20  
o'clock, there were two slight  
shocks, and at 3:20 o'clock, a  
severe one which lasted for six  
seconds. At 4:25 o'clock, for a  
few minutes before 8 o'clock, a  
slight, but more shocks were felt.  
The tremor at 3:20 p.m.  
shattered some plate glass in  
a few buildings and twisted  
one of the small towers on the  
City Hall. Officials at the hall  
say that the tower was faultily  
constructed.

and foggy, New Year's Day in  
Chicago was about as unseasonable as  
well could be. The streets and pavements  
were muddy, owing to the mois-

DOWIE'S MEXICAN ZION.

John Alexander Dowie, in his ser-  
mon today, announced that he had con-  
cluded negotiations for the purchase of  
a tract of land in Mexico, fronting for  
fifty miles on the Gulf and containing  
1,000,000 acres, on which he would  
found the second Zion City. He de-  
clared he would have it in operation  
within the year. The tract, he said,  
contained some of the most fertile land  
in the republic, was watered by eight  
rivers, and bounded by the mountains  
ranges rich in minerals. He will leave  
this week to inspect it personally.

TWO MUCH CELEBRATION.

Sixteen persons began the New Year  
at the Detention Hospital. One was a  
man named Sorenson, who had forgot-  
ten his first name and wanted to fight  
the attendant because they could not  
tell him what it was. Several of the  
cases were due to too much celebra-  
tion.

clusive Dispatch.] The year 1905 was  
marked by murder before it was a  
month old.

lost his connection with the case en-  
tirely. On top of this, the case was  
announced in the morning. Henry had  
pointed a deputy in the office of Hall  
in order to enable him to conduct the  
investigation before the grand jury and  
the estrangement which had begun to  
be noticeable became complete.

It was then that the grand jury was  
one of the first causes that led to the  
request of Henry that Hall be re-  
moved from the case, when it is as-  
serted that Henry was badly  
witness by the government in the  
Futer-Watson trial. He had, however,  
left for the East, and could not be lo-  
cated. Henry asked that he be found,  
as his evidence would have been im-  
portant in the completion of the gov-  
ernment case. No one seemed to know  
anything of his whereabouts until  
about the close of the case, when it is  
asserted that Hall said he thought he  
knew where Sorenson could be found. He  
said he thought that Sorenson was in  
the city, and that he had been devel-  
oped, so it is said, that he had been  
in communication with him since the  
beginning of the case. It was then that  
Hall said he thought he knew where  
Sorenson could be found. He said he  
thought that Sorenson was in the city,  
and that he had been developed, so it is  
said, that he had been in communica-  
tion with him since the beginning of the  
case. It was then that Hall said he  
thought he knew where Sorenson could  
be found. He said he thought that  
Sorenson was in the city, and that he  
had been developed, so it is said, that  
he had been in communication with him  
since the beginning of the case.

It is stated also that Ormsby was to  
have made a confession last spring,  
and that he failed to do so is laid at  
the door of the government. These and  
other things which are said to have  
developed, finally convinced Henry  
that he was not getting the best of the  
sympathy of Hall in the prosecution  
of the cases. Then Henry made his re-  
quest to the President for Hall's re-  
moval.

Hall in reply says nothing. It is his  
desire to be removed from the case  
until the facts in the case are un-  
folded. He is waiting until such a time  
as he is given a chance by the President  
to explain his position and make clear  
his acts while in office, and when that  
time comes he will convince all that he  
has done nothing to merit the removal  
directed against him.

What Port Arthur goes through it  
is impossible to describe, but Russia

fered. It is past human mind to paint  
or describe Port Arthur's sufferings  
as they really are.

The fighting at Two Hundred and  
Three Meter Hill, according to the  
Novikoff, lasted sixteen days, until  
December 6, when death, which had  
had no rest for sixteen days, ceased  
her work.

The only other mention of the Rus-  
sian fleet is an expression of the feel-  
ing of helplessness that everyone saw  
was inevitable, as ship after ship suc-  
cumbed to the huge Japanese shells.  
Yacermolester Balashoff had, ac-  
cording to the Novikoff, held a con-  
ference with the Japanese in refer-  
ence to the protection of the hospitals  
from the Japanese shells. The con-  
ference resulted in the making of the  
Red Cross flags larger and also the  
painting of the same on the sides of  
the hospitals.

## DR. CHADWICK MEETS WIFE.

She Declares Stories About  
Herself are Lies.

Both Break Down and Weep,  
Lying Together.

Constant Cry of "Trust Me"  
from the Woman.

(BY THE ASSOCIATED PRESS—P.M.)

CLEVELAND, Jan. 1.—Unheralded  
and unannounced by a crowd of the  
curious, the home-coming today of Dr.  
Leroy S. Chadwick was in diametric  
contrast to the arrival of his wife,  
three weeks ago. The hour of the day  
and the fact that but few people were  
about the city at this time, made the  
arrival that of an ordinary traveler. No  
one was at the station to meet him, with  
the exception of Attorney Kernish.  
Even his stepson, Emil, failed to see  
him until 3 o'clock. Young Hoover had  
planned to board the train at an out-  
lying station, but the train had come  
into that station and departed before  
Emil was aware of the fact.

Sherriff Barry, in whose company Dr.  
Chadwick was, on the trip from New  
York, chose to come to Cleveland over  
the Pennsylvania road. The train ar-  
rived at Cleveland at 7:30 o'clock this  
morning. Scarcely any of the few at  
the station knew of the party's ar-  
rival, and the Sherriff and Dr. Chadwick  
were driven to the County Jail quick-  
ly. A bond, provided Saturday evening  
by Attorney Virgil P. Kline and  
Attorney Dawley, was at the jail on the  
arrival of Dr. Chadwick, and he soon  
was released. After the preliminaries  
in the sheriff's office, Dr. Chadwick  
was escorted by Sherriff Barry to the  
fourth floor of the woman's ward,  
where his wife held a prisoner.

The meeting between the two was  
pathetic in the extreme. Mrs. Chad-  
wick arose when she heard the steps  
in the corridor, and fell into her hus-  
band's arms when she recognized him.  
Both broke down, and wept convulsive-  
ly for several minutes clinging to each  
other, the Sherriff attempting mean-  
while to console them. There was  
much to be said by the scene. Gen-  
uine grief and genuine joy intermingled  
in the eyes of the two. Dr. Chadwick  
was silent until his train reached the  
Euclid-avenue station of the Penn-  
sylvania line, where he was greeted by  
Wade and the two men who have been  
his friends for fifteen years.

After that statement, Dr. Chadwick  
was silent until his train reached the  
Euclid-avenue station of the Penn-  
sylvania line, where he was greeted by  
Wade and the two men who have been  
his friends for fifteen years.

After leaving the jail, Dr. Chadwick  
went to a formal apartment in the  
city, where he was met by his wife.  
Dr. Chadwick would have the occupancy  
of his Euclid-avenue home, since it  
has been taken possession of for the  
benefit of creditors of Mrs. Chadwick,  
but it has been decided by the lawyers  
that Dr. Chadwick cannot be barred  
from the use of the home. He will  
go to his own home tomorrow.

POSSIBLE TROUBLE FOR HARRY.

(BY THE ASSOCIATED PRESS—P.M.)

CLEVELAND (O.) Jan. 1.—In per-  
mitting Dr. Chadwick to visit his wife  
today Sherriff Barry may find himself  
in trouble with the Federal authori-  
ties because the visit between the phy-  
sician and his wife had been allowed  
such a lenient application to the  
Federal authorities and the necessary  
permit to visit her had not been grant-  
ed. On the other hand, Sherriff Barry  
said that he was the custodian of the  
County Jail and its inmates.

JACKSONVILLE (Fla.) Jan. 1.—It  
now develops that Algonquin C. Meyer  
was in New York at the time of the  
death of Caesar Young and saw the  
shooting, and that he has given his  
testimony to District Attorney Jerome.  
In response to the Associated Press he  
wrote: "I was in New York, I wit-

## THE BOARDS TO BE NAMED.

Eight Tip on McAleer's  
First Appointments.

Citizens Selected for All the  
Several Commissions.

T. Johnson at Present is  
Unwilling to Serve.

was authoritatively announced  
evening that the following ap-  
pointments will be made next  
day by Mayor McAleer, immedi-  
ately after he assumes his official du-  
ties.

**Board of Police Commissioners:**  
L. C. Gates (Rep.)  
George Mason (Dem.)  
Frank James (Dem.)

It was reported that O. T.  
Johnson was to be appointed  
on the Police Commission, but  
he said last night that he  
could not serve.

**Board of Park Commissioners:**  
E. M. Morrison (Rep.)  
W. A. Lamb (Rep.)  
M. J. McGarry (Dem.)

One Democrat not selected.  
**Board of Fire Commissioners:**  
Lester Robinson (Rep.)  
Walter Wren (Rep.)  
Martin Betkowski (Dem.)

One Democrat not selected.  
**Board of Health:**  
Dr. E. S. Salisbury (Rep.)  
Dr. E. C. Manning (Rep.)  
Dr. Carl Kurtz (Rep.)  
Dr. E. M. Pallette (Rep.)

A. Bennett will be reappointed  
as building inspector.  
The successor to Julius Krause  
as superintendent of buildings has  
not yet been determined, and it  
is quite possible that the selection will  
be made before next Tuesday.

There has been a great deal of  
speculation regarding the make-up  
of the commissions, and many  
guesses have been published. Some  
of the newspapers have essayed to  
fix up the boards for Mayor-elect  
McAleer, but have even gone so far  
as to appointments. The  
Evening Express has been particularly  
careful in this respect. It has made  
appointments and revoked them, pub-  
lishing a new list of board members

be made before next Tuesday.  
The appointment will be read in  
a Council chamber. Krause will not  
be retained.

FRANK JAMES.  
To be Police Commissioner.

McAleer has repeatedly said that he  
intended to proffer the honor to Mr.  
Johnson and it was given out last  
evening from sources very close to the  
Mayor that he still proposes to ap-  
point him.  
Mr. Johnson stated, however, to a  
Times reporter last evening that he  
had made up his mind not to serve.  
He said that the announcements in  
the papers that he had decided to ac-  
cept the place had been premature,  
as he never had stated positively that  
he would certainly be one of the com-  
missioners. Unless there is some  
change in the situation before Tues-  
day Mr. Johnson will not be a mem-  
ber of the board, and there is not likely  
to be any change.

**MALEER TALKS "HORSE."**  
Probably never before has a Mayor  
of this city so jealously guarded against  
the announcement of his appointments  
as has Mayor-elect McAleer.

He was dumbfounded yesterday  
when the above list was shown to him.  
He would neither admit that it was  
correct nor say that it was wrong. He  
very politely but in a most deter-

mined manner refused to discuss the  
matter at all. He did not want to  
talk politics.

He was vastly more interested in  
horses. He had just gotten his colt,  
a magnificent two-year-old with blood  
in his veins, from the trainer, and  
insisted that the Times man should  
go out to the stable with him.

The Mayor was bubbling over with  
horse lore, but he shed every time any  
reference was made to politics, and  
especially at any query as to the ap-  
pointments he is about to make.

The Times, however, is sure of its  
ground and the list given above is cor-  
rect.

It is well-known that the Mayor has  
been on a still hunt for good men  
for the various commissions ever  
since his appointment.

**BUSINESS BOARDS.**  
The men selected are all citizens of  
large business and professional expe-  
rience. The announcement of the ap-  
pointments will cause surprise and dis-  
appointment among the political camp  
followers, who have been hot on Mr.  
McAleer's trail ever since he was  
elected.

But no more surprise will they be

than some of the appointees. Sev-  
eral of them who are slated for ap-  
pointment on the commissions were ig-  
norant of the fact last night. They  
had been approached on the subject,  
but knowing that the Mayor was be-  
lieved by a host of politicians begging  
for consideration, they had given the  
matter little thought.

Mayor McAleer declared from the  
start that his is to be a business ad-  
ministration. To this end he has ap-  
pointed men of brains, stamina and  
business ability for his commissions.

The Police Commission is to be com-  
posed of two business men and two at-  
torneys. There are two Republicans  
and two Democrats.

L. C. Gates is one of the best-known  
attorneys in the city being the leading  
attorney for one of the largest ab-  
stract companies in the West. He is  
a man of great energy, intellectual  
brilliance and integrity. He is one of the  
foremost platform speakers in the  
State.

George Mason is one of the solid  
business men of the town. He has

lived in Los Angeles many years and  
his interests are extensive. Among  
other large holdings he owns the old  
Chamber of Commerce building on the  
corner of Fourth street and Broadway.  
He has ever taken a lively interest  
in everything that made for the wel-  
fare of Los Angeles.

Frank James is an able lawyer, of  
unusual reputation and a hard worker.  
He has held many positions of trust  
and responsibility, and has always ac-  
quitted himself with credit. He is a  
close personal friend of the Mayor  
and will be of great assistance to him

in the discharge of the arduous duties  
upon which he is about to enter. Mr.  
James has the qualifications in every  
of the bench and bar of the city, as  
well as of a large number of influen-  
tial business men.

**PARK BOARD.**  
The three selected for the Park Com-  
mission are well-known business men.  
The fourth member of the commission  
has not yet been chosen. He will be  
a Democrat, to comply with the non-  
partisan provisions of the city charter.

E. M. Morrison, who heads the list,  
is a First Warder, and is an old-time  
friend of the Mayor. He has had a  
large experience in business affairs,  
and is the owner of considerable prop-  
erty in the city. He is a director of  
the National Bank on the East Side.

**WALTER WRENN.**  
To be Fire Commissioner.

According to indications the Fire Com-  
mission will be the "jolliest bunch" of  
all.

Lesser L. Robinson is one of those  
big, good-fatured fellows whom every-  
one likes and who makes friends al-  
most as fast as Rockefeller makes  
money. He is secretary of the Hughes  
Manufacturing Company, and engaged in  
the real estate and oil business. He  
was chief deputy in the County Re-  
corder's office under the Wade regime.  
Robinson will have a good partner  
in Walter Wren, who is just as a fine  
and good-humored as he. Wren is an  
insurance agent, and a substantial  
business man. He is president of the  
Twenty-ninth Street Government Club.  
He is a member of the Chamber of  
Commerce.

**BOARD OF HEALTH.**  
The Board of Health enjoys the dis-  
tinction of having the only holdover  
on any of these commissions. Dr. S.  
Salisbury will continue to serve.

**MARTIN BETKOWSKI.**  
To be Fire Commissioner.

During the past term he has devoted  
much time and attention to the work  
of the board, and is a valuable mem-  
ber.

The board is composed of two old  
school and two homeopathic physi-  
cians. All four are Republicans.

Dr. Manning, who is to be appointed  
to a place on the board, summed up  
the whole spirit of the McAleer ap-  
pointments in this characteristic style:  
"I am surprised," said he, "that  
McAleer should have chosen me as a  
member of the Board of Health. I am  
not a politician and in fact have got  
no use for the dirty underhand meth-  
ods employed by certain of our civic  
officials who appear to have no scrup-  
les."

"Mac" is a fine fellow, and he is  
honest to the core. I did not want the  
place, but when I told him as much  
he said, 'That is just the reason I want  
you.'"

"I tell you, there will be something  
doing in this town now that Mac" is  
conducting our city business.

"I have lived in Los Angeles for  
twenty-two years, and I have wit-  
nessed a good many public mistakes,  
but we have chosen right this time."

Reverend, and he is going to stir up

Dr. Manning, who is to be appointed  
to a place on the board, summed up  
the whole spirit of the McAleer ap-  
pointments in this characteristic style:  
"I am surprised," said he, "that  
McAleer should have chosen me as a  
member of the Board of Health. I am  
not a politician and in fact have got  
no use for the dirty underhand meth-  
ods employed by certain of our civic  
officials who appear to have no scrup-  
les."

"Mac" is a fine fellow, and he is  
honest to the core. I did not want the  
place, but when I told him as much  
he said, 'That is just the reason I want  
you.'"

"I tell you, there will be something  
doing in this town now that Mac" is  
conducting our city business.

"I have lived in Los Angeles for  
twenty-two years, and I have wit-  
nessed a good many public mistakes,  
but we have chosen right this time."  
Mac, in a lesser degree, is another  
Reverend, and he is going to stir up

DR. E. M. PALLETTE.  
To be Member of Board of Health.

Powers, who will be retained as Health  
Officer, Friends of the Mayor say that  
it is his policy to assist Dr. Powers in  
every possible way in his efforts to ob-  
tain the best sanitary conditions for  
the city.

A. A. Bennett will be continued as  
plumbing inspector. He is said to be  
one of the most capable men for this  
class of work in the country.

**PRESENT FOR MALEER.**  
Mayor-elect McAleer was presented  
with a beautiful gold watch and chain  
by the employees of the Baker Iron  
Works last Saturday evening. Mr. Mc-  
Aleer has been foreman of this es-  
tablishment for many years, and has  
the warmest friendship of every man  
in the shops. The presentation was  
made by Fred L. Baker.

Upon the case of the watch are en-  
graved the initials of the Mayor. On  
the inside is a testimonial of the af-  
fection which the donors feel for their  
former boss.

The Mayor was deeply touched by the  
gift, and it was some minutes before  
he could find words to express his  
appreciation.

**HAS TAKEN OATH.**  
Mayor-elect McAleer has already  
taken the oath of office, as have all  
of the other new city officers.

Tomorrow he will be inaugurated  
into office.

It is probable that he will be cer-  
emony connected with the event. His  
first official act will be to send a mes-  
sage to the Council with a list of his  
appointments.

It is expected that he will not at-  
tend the meeting of the Council, but  
will convey whatever information and  
instruction he may wish to give the  
Council through his message.

It is expected that a crowd will be  
on hand to see the new Councilmen  
take their seats and to wish them as  
happy an existence for the next two

years as it is possible for Councilmen  
to have.

Although there are many important  
matters to come before the new Coun-  
cil at once, little will be accomplished  
at the first meeting, although at the  
afternoon session some of the most  
urgent matters may be attended to.

**DR. CARL KURTZ.**

# BIG INJUN'S FOWL CRIME.

Cabello de Hono Admits He Stole One Chicken.

Hunger His Only Excuse for Raiding Hen Roost.

Remarkable Sentence Imposed by Calexico Justice.

Squawking on his haunches in the cell of the County Jail yesterday afternoon, Cabello de Hono, an Indian of magnificent type, chewed ravenously at the end of a loaf of bread and gulped down a steaming tin of coffee. He was a strange picture.

Shortly after noon Deputy Sheriff Cook of San Diego county lodged the Indian in the jail awaiting transfer to Calexico, where he will serve 450 days for stealing one chicken in Calexico. Had he stolen a dozen chickens he probably would have received a life sentence, so heinous is the crime of getting larceny at Calexico.

Asked in Spanish if he was a bad Indian, Cabello de Hono grunted: "Yes." "Have you ever been arrested before?" "Once for being drunk." He got thirty-two days for that offense. As far as he could be learned from the deputy, the heavy sentence has been given simply because he is an Indian.

Under the law the maximum sentence for petty larceny is an imprisonment for 180 days, or a fine of \$500, or both. Sentence was pronounced in this case by Justice B. Hoffman of San Diego, and the papers call for 450 days, or \$450 fine. The sentence will stand in law, and if the poor Indian as friends who will institute habeas corpus proceedings, he will undoubtedly be released.

Cabello de Hono is 6 feet 2 inches in height, weighs 215 pounds. He is a picture of a man, with a black hair, a broad forehead, and a pair of eyes that are as strong and his eye clear. He is a native of the Indian reservation in California, and that a wife and his return from the long imprisonment.

It appears that two other Indians were party to the stealing of four chickens. They were drunk and all were caught. Cabello de Hono says that he stole the chickens, and that hunger was the reason for his crime.

The expense to San Diego county in transporting this Indian and his wife from Calexico to the county jail, and his board for 450 days, will amount to more than all the chickens he stole. That the long term of imprisonment will make a better Indian of Cabello de Hono seems extremely probable.

## IN MEMORY OF THE JUST.

MANUEL CHURCH HONORS ITS FORMER PASTOR.

Memorial Tablet Unveiled in House of God Which He Founded and Where He So Long Ministered to the Flock—Loving Tribute to the Late Dr. Chichester.

"The memory of the just is blessed." This was the apt quotation which read forth on the memorial tablet which was unveiled in Immanuel Presbyterian Church yesterday morning in loving remembrance of the founder of the church, Dr. William John Chichester, and this was the spirit which actuated all the service, and which was participated in by a very large congregation.

The services were simple and devoid of any spectacular effect, yet they were full of interest, and warm were the tributes paid to the faithful pastor who has now gone to his reward. The service was in charge of Rev. Hugh Walker, D.D., the present pastor of the church.

## DISTURBANCE AT BALL.

Mob Tried to Break up Turnverein Dance—Policeman Assaulted.

Several Arrests. A mob of twenty men made a raid on Turner Hall at 2 o'clock last night and for a time threatened to break up the annual dance of the Turnverein Germania. The iron gates, which were locked, were forced open and the crowd surged up the stairway and attempted to get past Officers Craig and Mutnikiewicz, who were at the door. A small riot, in which the latter officer was struck on the cheek, wounding him, ensued. N. Nast, T. Truth and J. P. Edwards were arrested and lodged in the City Jail. They will probably be charged with disturbing the peace and interfering with an officer.

Nast is but a High School lad of 16, and had been drinking. The others had jags of various dimensions.

## CHAPEL OPENED.

First Portable Church Erected by the Baptists Was Used Yesterday at University.

A quaint little portable church, built in sections, so that it can be "knocked down" by a man and a boy in two or three hours, ready to shift to some other site, was opened by the Baptists at University Station yesterday afternoon. The first congregation filled the room, which is 25x50 feet, and the opening service was under the direction of the man who will serve the portable church as pastor, Dr. C. C. Willets, of the Orchard-avenue Baptist Church. He presented a financial statement and set forth the aims of the City Board of Church Extension in placing this chapel at University. There were addresses by Dr. Thomas Baldwin, acting pastor of the First Baptist Church; Rev. R. E. Henck, pastor of Bethel Baptist Church; and Rev. William H. Walker, pastor of Calvary Church, in Boyle Heights. Music was rendered by a choir of girls, which choir will be a feature of the regular services in the chapel hereafter. A Sunday-school was established, with Mr. Dawson as superintendent.

**The Cause**

Because the drain pipe in our roof was inadequate to carry off the rain Friday night the water backed up on the roof and ran through in such quantities that every ceiling became like a sieve and the water ran from floor to floor clear through to the basement.

**The Effect**

As a result some of our furniture is badly damaged. A large amount is slightly damaged—some so slight that your attention will have to be called to the damage—and luckily a good deal was not hurt at all. Some carpets and rugs are also wet on the edges, but can be dried out in your home.
